(450) 330 1386

Summary

- 3 years of experience in developing responsive web applications
- Master in JavaScript (JS), TypeScript (TS), ES6+, HTML, CSS, REST API
- Diverse expertise in React, Node.js, Express, and MongoDB development
- Design solutions with high-quality, clean, maintainable, and well-documented code

Experience

Full-Stack Developer at SS&C Technologies

Mississauga, ON, Canada | Jan 2023 – Present

- Proficient in front-end development using JavaScript ES6+ to create dynamic and interactive user interfaces.
- Highly skilled in React for building efficient, scalable, and responsive web applications with modern UI components.
- Improved app performance by 15% through centralized state management using Redux.
- Experienced in backend development and API creation using Node.js and Express to build robust and scalable server-side solutions.
- Maintained scalable RESTful services and full-stack apps for optimal performance.
- Used MongoDB for non-relational database management, ensuring efficient data storage and retrieval in modern web applications.
- Capable of shipping code that is integrated and end-to-end tested using Jest, ensuring robust and reliable software deployment.
- Familiar with responsive UI design and design systems, collaborating effectively with UX/UI designers for seamless integration.
- Experience with Agile methodology and Scrum practices.
- Managed tasks and sprints with JIRA Confluence.

Full-Stack Developer at Sanatan Tech Innovations

Ahmedabad, GJ, India | Jan 2021 – Jun 2022

- Proficient in React/Redux for state management and building dynamic, interactive web applications with efficient data flow.
- Skilled in Node.js for backend, enabling efficient and scalable server-side functionality.
- Utilized Express.js to optimize routing and middleware handling in Node.js applications.

- Experienced in MongoDB for efficient non-relational data management.
- Applied a solid understanding of HTML, CSS, JavaScript ES6+, and TypeScript to create user-friendly interfaces.
- Conducted comprehensive unit and integration testing using Jest, ensuring the reliability and stability of the codebase.
- Integrated RESTful services and managed APIs that interact with the backend.
- Proficiency in Figma for collaboration between UI/UX design and development teams.
- Utilized Trello for project management, ensuring effective communication and task tracking within the development team.
- Proven ability to work quickly and autonomously in a fast-paced work environment.

Education

Master of Applied Computer Science – *Concordia University, Montreal, QC, Canada.*
MASc in Computer Science (2023)

Bachelor of Engineering – *Gujarat Technological University, India*
BEng in Computer Engineering (2022)
